

TOGETHER FOR LUXEMBOURG

THE COMMISSION SPECIFIC JOBS (CATERING, EDUCATORS, DRIVERS...)

The Commission in Luxembourg concentrates all possible jobs one may think off but that not everyone is aware off. Each such job involves its own qualification, environments needs and rules.

Let us first remember the colleagues that were on deck during the crisis: Educators taking care of our kids; drivers taking care of driving key staff or material and catering colleagues (cooks, cashiers, deliverers, etc).

But that's not all one may think of our colleagues taking care of the other logistical aspects like the proximity teams. It goes without saying that these colleagues also don't have the luxury and flexibility of a standard desk and so teleworkable job.

These colleagues though have very specialized jobs that often impedes on their effective career prospects (and to some extend that may also be said about OIL and PMO agents with very specialized profiles).

For all these specific jobs, USFL wishes to:

- Ensure stability and career prospects under all types of contracts
- Monitoring the consequences of the new working time setup
